MACK & CO.,

SOLE MANUFACTURERS OF THE

D. R. Barton Brand

CARVING TOOLS.

18 Brown's Race,

Rochester, N. Y.

1895.

- MACK & CO. -

We are now making a full line of the Addis Pattern Carving Tools, illustrations and prices of which we present in the following pages.

We have in our employ a workman, who, before coming to America, made these tools for Addis, in England, and is thoroughly experienced in this line of work. We use the best English steel in them and spare no pains or expense in the effort to have them fully sustain the high reputation that the Barton Tools have held for more than half a century. We think they will compare favorably, both in style, finish and quality, with any made in the world.

Respectfully,

MACK & CO.
